## Commitment to Creating Comfortable Travel Space

- Fixtures in place of old fixtures for hall & landing.
- Controller & Machine Drive Up-gradation for minimizing power consumption.
- Creative cabin enhancement for elegance look.
- Door-Protection & Fire-Protection Technology.

## A Little Focus about Arrive Elevators

Arrive Elevators has been accredited with ISO 9001 : 2015 for their continued outstanding performance and excellence.

Arrive Elevators in a short span of 5 years, has carved a significant niche in this field with sound engineering and service back up.

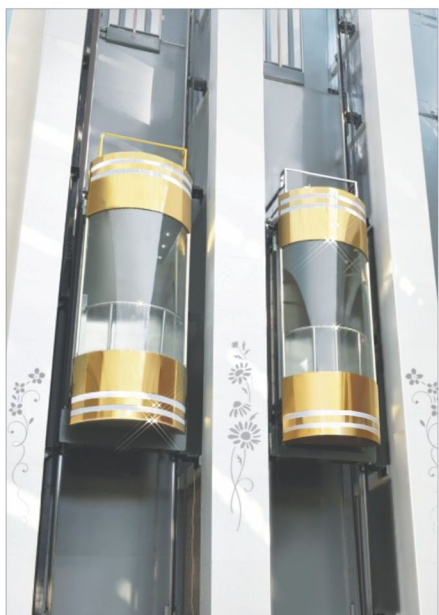

Arrive is now synonymous with Reliability, Sincerity, Commitment, High Quality, State of the Art Technology, Uncompromising Safety, Fair Price which have been stemmed out of our rich Ethics and Philosophy.

We are engaged in the marketing, execution, commissioning and after sale service maintenance of our lifts/elevators through our own resources. We do not just sale our products to our customers but also take care of their proper functioning throughout the operation and service life to the customers.

# Car Elevator

## A New Level of Parking Freedom

Car Parking Elevators help to alleviate the problems of finding sufficient parking space in busy areas, and save on costly land in commercial spaces.

These lifts smoothly transport vehicles to the tops of buildings, or to basements and showrooms.

They are carefully engineered for independent access of vehicles in private homes or multi-family residences where space is valuable.

### Technical Data :

| Description      | Vertical Transportation for Cars/ LMVs                                |
|------------------|-----------------------------------------------------------------------|
| Segment          | Industrial applications & Car Parks                                   |
| Max. travel (m)  | 100 (Solutions available for higher travel)                           |
| Max. load (kg)   | 500 - 5000 Kg per persons (Solutions available for higher capacities) |
| Max. speed (m/s) | 0.5 mps (Solutions available for other speeds)                        |
| Max. group size  | Simplex                                                               |

# Hospital Elevator

**ARRIVE ELEVATORS PVT. LTD.**

Setting New Standards of Vertical Transportation

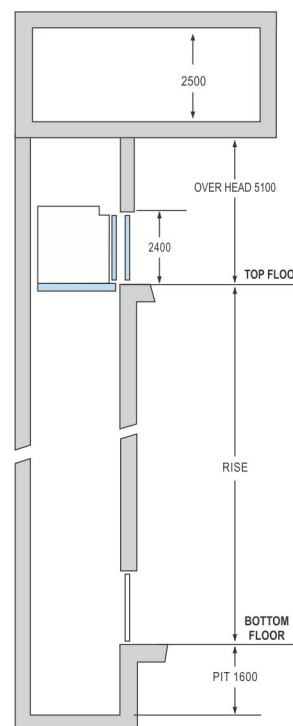

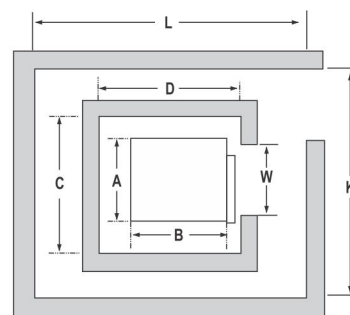

Capacity : 08 to 12 Passenger

Safety Door Edge (SDE) (Standard)

A mechanical safety device with a micro-switch reverses closing doors if there is physical contact with a passenger or an object.

It creates a clean and Bright space which is harmonious to the hospital environment.

- All Dimension are in mm. This is General Data, it may be changed without notice. For more details contact us.
- All hoist way walls should be minimum 230 mm brick or 150 mm R. C. C.

## Car Stacker

Parking Lift

### Salient Features :

This system features a pallet that is lifted up after the car is loaded. Thus additional parking can be made available in the space below the loaded pallet. Both indoor and outdoor installations are possible. Installation can be done on simply flat area with no additional architectural work. These systems are hydraulically operated. Preferably these systems are valet parking systems.
